

EnviroSNACK is designed for preschool and kindergarden classrooms as well as special needs students. Each student is given the works to create a delicious snack that represents our enviroment. We begin with a chocolate graham cracker, our 'soil', and end with miniature marshmallows- the 'clouds' of our snack. While the students are enjoying their enviromental creation, " Big Earth, Little Me" a story about protecting our enviroment is read to them.

This demonstration is approximately one hour. To schedule an 'EnviroSnack' please call Penny Morgan or Jeanette Fuller at (910)947-5183 ,EXT.3
